

SETS!

2, 3 or 4 Players

In this version, you play with any 3 matching sets of cards

Aim

Remember where the cards are... And collect 3 that match.

How to Play

- Since you're reading this, you're in charge...
- Sort out sets of 3 matching cards, allowing one for each person. For example, in a three-player game you might use 3 x Rock, 3 x Paper, and 3 x Scissor cards.
- Shuffle all of those cards together. Now deal them out singly, face down, where everyone can reach.
- To start, the player on your left turns over any card... They now have to turn over another card hoping to match the original.
- If the second card matches, they try for the third.
- When a third card matches the first two, pick them all up. That player may then take another turn.
- If a new card does NOT match the one before it, the player turns all cards face down again. Play moves to the next person on the left.
- This continues until all cards have been picked up.

Whoever picks up the most sets wins.

CAN BE PLAYED WITH ALL CARDS...

Rock, Paper and Scissors cards: 2-10 plus Ace, Jack, Queen, King, Joker, Paper v Scissors, Paper v Rock, Rock v Scissors
 Rock v Paper v Scissors, Thumbs Up and Play Again cards.

Play this with any set of 3 matching cards; one set for each player.

Note: For younger players, or an easier game, use single-picture cards.
