Devise a game – simple or strategic!

go to tri-hand.com to submit your gameplay idea

*or equivalent in your currency.

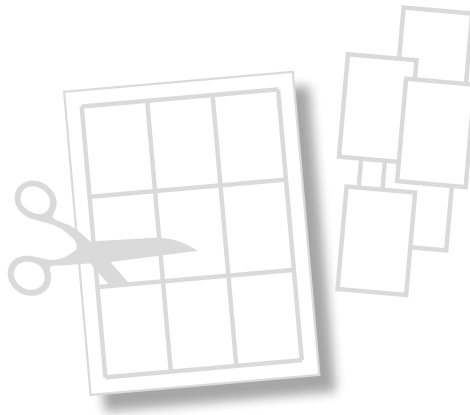

† Full terms & conditions on our website.

HOW TO PRINT AND PLAY

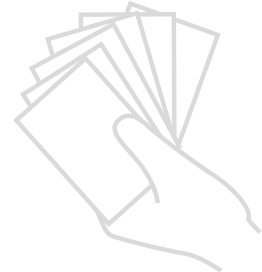

Print

Tri-hand® is formatted to print single-sided onto 1 - 7 sheets of paper or card.

Cut

Print directly onto card, print onto paper and glue onto spare playing cards, or use card sleeves.

Play

Your new micro game is ready to go. Read the rules, find a friend and start playing!

Most games have a separate rules document in addition to the cards.

You may need to download the Adobe Reader application to view and print the PDF files, although most systems will now handle these files automatically.

Make sure when you print the file that the 'Page scaling' option is set to 'None'. If your system does not have this setting, choose 'Actual size' or set the page scaling to 100%. This will ensure that the cards are printed at the ideal size.

You can either print directly onto thick card stock, or print onto paper. If you print onto paper and have some spare 'Poker sized' playing cards, you can either glue the cut paper onto the cards or use card sleeves to make a playable, durable game.

ENJOY

We look forward in seeing what game plays you will come up with and hopefully you will see your game play being played by millions of people all over the world.
